

Certified ScrumMaster Training

SolutionsIQ Certified ScrumMaster Training gives you all the tools and information you need to get started with Scrum and Agile. Delivered by SolutionsIQ's world-renowned Certified ScrumMaster Trainers, this course shares time-tested practices for managing Product Backlogs, planning your releases and iterations (Sprints), and tracking and reporting progress. You'll learn how to lead Sprint Planning meetings, Daily Scrum meetings, Sprint Review meetings, Sprint Retrospectives, and much more.

On successful course completion, participants are eligible for Certified ScrumMaster (CSM) status with the Scrum Alliance (www.scrumalliance.org). The course fee includes a one-year membership in the Scrum Alliance.

● ● ● Course Benefits

The leading and fastest-growing of the Agile methodologies, Scrum is a simple software project management framework that adheres to a small set of interrelated practices and rules, is not overly prescriptive, and is able to produce productivity gains for software development teams almost immediately.

This agile, lightweight process effectively manages and controls software development through iterative, incremental practices. Scrum training will boost the capabilities of your Agile development team and positively impact projects for years to come.

● ● ● Course Topics

- Introduction to Agile
- Origins of Scrum
- The Scrum process
- Roles and responsibilities
- Product Backlog
- Estimating Product Backlog items
- Scaling Scrum
- Scrum in detail
- Sprints
- Sprint planning meeting
- Daily standup meeting
- Burndown charts and project reporting
- Sprint review and retrospective
- Getting started with Scrum

Dhaval Panchal,
Certified Scrum Trainer

Who Should Attend

All software team members, including project managers, team leads, development managers, product managers, architects, developers, testers, as well as executives (e.g. CIOs and CTOs).

Prerequisites

This is an introductory course. Participants should come prepared with basic knowledge of the Scrum framework. We recommend that, prior to attending this course, participants read the “Agile Manifesto and Principles” (www.agilemanifesto.org and www.agilemanifesto.org/principles.html), as well as one of the following books:

Agile Software Development with Scrum
by Ken Schwaber and Mike Beedle

Agile Project Management with Scrum
by Ken Schwaber

Trainers expect attendees to participate for the full two days of the course from 9 a.m. to 5 p.m.

● The SolutionsIQ Difference

SolutionsIQ has proven expertise in applying Agile methodology to the development of cutting-edge software. Our Agile consulting practice grew organically out of our Agile development capability. Because Agile and Scrum are so much a part of the way SolutionsIQ operates, we have more Certified ScrumMasters and Certified Scrum Trainers than any other Agile consulting and training organization. Our Agile coaches and trainers are unique in the industry in that they continue as Agile practitioners working on client projects. Our consultants help organizations understand how to apply Agile through examples and real-world experiences, and our pragmatic approach allows participants to immediately leverage proven tools and techniques to boost performance.

About SolutionsIQ

SolutionsIQ has proven expertise in using Agile methods to develop cutting-edge software.

Our practitioners and coaches teach by example and share their real-world experience, working side-by-side with our clients to develop and deliver software.

For over thirty years, SolutionsIQ has combined technical expertise and a hands-on approach to serve clients ranging from early-stage startups to the Fortune 500.
